

LED LIGHTING

The future of lighting has arrived! Light-emitting diodes (LED) have been maturing for thirty years. Gaining popularity in traffic lights, vehicles, emergency signage, night lights, and other applications, they are now becoming readily available in other building applications. And Amicus is leading the charge to revolutionize your lighting!

The advantages of LEDs include:

- Up to **80% less energy** use than incandescent flood lights, 30% less than fluorescents
- Will last up to **50,000 hours** (so if you have it on 8 hours a day every day, that's **17 years**)
- Give off virtually **no heat**--a safety and comfort benefit, and it doesn't fight your A/C
- **No mercury** (which fluorescents, including CFLs, have--a disposal problem)
- 3 year warranty (not bad for a lightbulb!)

LR6 6" Downlight Module

Product Description

The LR6 is a downlight module for new construction and retrofit that installs easily in most standard 6" inch recessed IC or non-IC housings. The LR6 generates white light with LEDs in a new way that enables an unprecedented combination of light output, high efficacy, beautiful color and stability. U.S. Patent #7,215,840 issued. Numerous patents pending.

Performance Summary

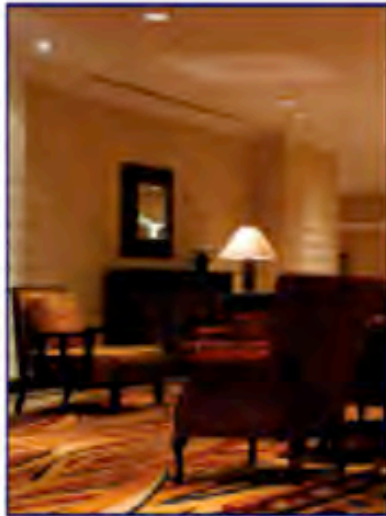

- Nominal delivered light output = 650 lumens
- Nominal input power = 12 Watts
- CRI = 92
- CCT = 2700K or 3500K
- Dimmable to 20%

Ordering Information

- LR6 – 120V, Incandescent Color (2700K), Edison Base (STANDARD)
- LR6-GI24 – 120V, Incandescent Color (2700K), GU24 Base
- LR60 – 120V, Neutral Color (3500K), Edison Base
- LR60-GI24 – 120V, Neutral Color (3500K), GU24 Base

LR60

ACCESSORIES Compatible with all LR6 Models

- ETS8 - Diffuse anodized trim
- ETS8W - White diffuse anodized trim
- ETS8P - Pewter diffuse anodized trim
- ETS8B - Black diffuse anodized trim
- ETS8H - Smooth white trim
- ETS8G - Graphite diffuse anodized trim
- ETS8M - Mocha diffuse anodized trim
