

Stylish, Sustainable & Smart choices for Home & Office

➤ *Philosophy*

Green Courage, LLC provides the courage often needed to buy green. The good news is that there are more green options available in today's market...the not so good news is that it can take hours to sort through libraries, trade magazines, the internet and stores to gather and evaluate information about green products.

Green Courage, LLC takes the burden out of locating the best there is for the built environment. Our products are chosen after they have proved to meet strict criteria including: quality, performance, safety, ethical manufacturing, and sustainability with equal emphasis given to beauty, comfort and design.

Green Courage, LLC supplies the products, information, support and direction needed for conscientious consumers and professionals to create beautiful and healthy environments.

Stylish, Sustainable & Smart choices for Home & Office

➤ *Mission Statement*

- To improve access to high quality and environmentally sound, building materials, supplies, finishes and furnishings at a competitive cost to the average consumer.
- To educate customers about products and available options so they may make informed decisions.
- To join like-minded companies in the push for the “new industrial revolution”.
- To provide the new construction and remodeling industry with building/interior design material and home products which have a light ecological footprint and are non-toxic.
- To make available to the developer, architect, designer, contractor, and homeowner beautiful and exciting alternative materials which comply with the LEED program of the U.S. Green Building Council.
